

## CLiQFLOW® 656 VR (EP 656 VR-1)

### Rheological Additive

**CLiQFLOW 656 VR** is a VOC-compliant, biocide- and organotin-free polyurethane thickener for aqueous decorative and industrial systems. The associative thickener increases both low and mid shear viscosity and provides a shear thinning flow behaviour.

**CLiQFLOW 656 VR** improves sag resistance, storage stability while maintaining levelling properties of aqueous systems. This associative thickener is ideal to improve the overall quality of decorative and industrial paint systems.

#### Typical values:

Appearance:	white opaque liquid
Active Content	ca. 20 %
Brookfield Viscosity:	< 5000 mPas
Density:	ca. 1.02 g/cm <sup>3</sup>

#### Level of Use / Incorporation:

**CLiQFLOW 656 VR** can be added to the aqueous system at any production stage. It does not require a pre-dilution step.

The optimum loading level with **CLiQFLOW 656 VR** should be determined for each system using a loading ladder study. A loading level between 0.2-2.0 % is recommended.

**CLiQFLOW 656 VR** shows excellent compatibility with most kind of aqueous binders us used for decorative applications.

**CLiQFLOW 656 VR** should be stored in a cool dry place above 5°C.
